- PostgreSQL
- MySQL

LANGUAGE

- English
- Indonesian

ABOUT ME

Hello, my name is Azra Yazid. I am a Fullstack Developer. In Front End, I have experience with JavaScript for developing websites, utilizing ReactJS as its library, and frameworks like Bootstrap or Tailwind for enhancing the UI. For Back End, I work with either Node.js or Laravel.

TRAINING

Fullstack Developer
PT. Dumbways Indonesia
Aug 2023 - May 2024

I was required to acquire proficiency in both frontend and backend technologies, which are important not only for web development but also for mobile development using ReactJS, React Native, Node.js, or even Laravel.

WORK EXPERIENCE

Customer Service
PT Travellergram Aplikasi Wisata
Sept 2019- Dec 2020

Proficient in customer service, adept at addressing inquiries and resolving issues promptly across various channels. Skilled in active listening, problem-solving, and delivering exceptional support to ensure customer satisfaction and loyalty.

PORTFOLIO

SPACE

Space is a social media platform inspired by Twitter. It functions similarly to Twitter, creating account and allowing users to post content. Space are created using React for the frontend and Node.js for the backend, with PostgreSQL as the database.
