Azra Yazid

📍 Bogor, Indonesia

Intro

Hello, my name is Azra Yazid, I am Junior Fullstack Web Developer, I am into Javascript for developing Websites using ReactJS as its library and Bootstrap or Tailwind framework to make UI looks prettier. you can see my portfolio at: https://azrayaal.space/

About

Well, I have had an interest in web developing since march 2021 and continued to use Bootstrap and Tailwind to make website, followed learn to using stack web such as MERN at December 2021 until now, My first web app is Rock-Paper-Scissors Game using Javascript, then I was creating Movie trailer web using free api from OMDB and continued with Javascript stacks like MERN, learning and creating my own REST API for TopUp game website that I built for MERN stack until now. At first it was difficult for me, it starts with just learning basic algorithms and understanding the flow or logic.

Skills

MongoDB   Node.js   Create React App   Next.js   Bootstrap   Tailwind CSS   npm   Postman

phpMyAdmin   MySQL   XAMPP   ExpressJS   TypeScript
